Get Started: Preventative Health Check

Get Blood Pressure Checked

Based on:

42 y.o. I BP date Mar 1, 2020 >

- your age (40 or older)
- the absence of a current blood pressure reading (greater than 1-year)

It is recommended that:

- **you get your blood pressure checked (e.g., at a local pharmacy or grocery store)**

Hypertension is a major contributing risk factor for heart attack, stroke, and chronic kidney disease.

Screening for and treatment of hypertension reduces the likelihood of heart attack, stroke, and chronic kidney disease.
